CAMPS AND EXCURSION POLICY

Rationale

Camps and excursions offer students opportunities to extend their learning through 'hands-on', age appropriate experiences directly linked to the curriculum being taught.

Their value also lies in enabling students to meet and mix with other people, including students from other sites, in structured situations.

Organisational Considerations

Camps and excursions are organised at the discretion of the school's teaching staff, using the decision making policy.

They must be aligned with the Department's *Camps and Excursions Guidelines for schools and pre-schools 2016* particularly in relation to issues such as:

- travel
- student/teacher ratios
- consent
- venue.

Financial Arrangements

Parents and caregivers must be given adequate notice about proposed camps and excursions to facilitate payment prior to the activity taking place. Consideration also needs to be given to the number of activities planned across a term or year in order to avoid financial stress for families.

Policies

Current Practice

ALL CAMPS AND EXCURSIONS ARE AT STAFF DISCRETION
